DETAILED ACTION

Receipt is acknowledged of the request for continued examination filed 05/04/2009. It is also noted that only two of the terminal disclaimers were accepted. The others were disapproved because: 1) an application can not disclaim over itself 2) The attorney was not of record, and 3) And an incorrect serial number was cited. Correction is required.

The previous rejection under 35 USC 112, first paragraph is withdrawn in view of applicant's amendment.

The following is a new rejection of the claims:

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 27, 29, 31-33, 35-43, 44, 48-52, 54, 56-64, 67, 71-76 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The new claims set out the the hydrogel contains acrylamide OR methylene-

bis-acrylamide. Both of these were essential to the claimed hydrogel and the claim as written therefore entails new matter. There is no support in the original specification for selection of only one of these components. Correction is requested.
